Answers to Safety Bowl
questions:

1. a. 403 feet. In that distance, many things can happen while you're totally unaware.
2. d. Recreational vehicles

Safety Bowl questions

1. Drowsy driving can be a killer. "Micro-sleeps" are brief naps that last only 4-5 seconds. When driving at 55 mph, what is the distance covered in a 5-second "micro-sleep?"
 - a. 403 ft.
 - b. 123 ft.
 - c. 44 ft.
 - d. 20 ft.
2. Some vehicles must stop at all highway-rail grade crossings. Which of these are not required to stop at all railroad crossings?
 - a. Vehicles carrying paying passengers
 - b. School buses
 - c. Hazardous materials carriers
 - d. Recreational vehicles
